Maylia Parker, P.Ge  
Executive Director, EPRA Atlantic  
[maylia.parker@epra.ca](mailto:maylia.parker@epra.ca)

Dear Ms. Parker:

This letter is to acknowledge receipt of the Electronic Products Recycling Association's (EPRA) request for an amendment of the current approved stewardship plan for the collection, management, and recycling of electronic products for our province.

I am pleased with EPRA's interest in our expansion of the electronic products category that will capture several new products including e-mobility, fitness equipment and various wearable technologies that were added to the *Environmental Protection Act* Materials Stewardship and Recycling Regulations on May 18, 2024. Our Environment Division staff has reviewed this request, discussed the matter with stakeholders involved in the current program and have recommended approval of the amendment request submitted by you on July 5, 2024.

Prince Edward Island takes a tremendous pride in being regional leaders in waste diversion and working at continued progress in our stewardship and waste recycling programs. The Department looks forward to our continued work with EPRA to promote sustainable end-of-life management of electronic products and I wish your organization continued success in the years ahead.

Sincerely,

Hon. Steven Myers  
Minister

Cc: Cliff Hacking, President and CEO, EPRA
