

## Why Recycle Electronics?

Our electronics are full of resources – everything from glass and plastic to gold, silver, copper and aluminum – that need to be recovered and recycled so they can go back into the manufacturing supply chain to be repurposed.

In fact, many of these resources can be reused over and over again without losing their properties, reducing our carbon footprint and lessening our dependence on traditional mining for new resources.

## Why Recycle with Recycle My Electronics?

When you recycle through the Recycle My Electronics program you're helping to:

- Prevent e-waste from being illegally exported or handled by irresponsible recyclers, decreasing environmental issues for the planet.
- Recover and recycle resources that can be put back into the manufacturing supply chain, conserving natural resources.
- Ensure the safe and secure destruction of personal data stored on hardware.
- Protect health and safety of workers and handlers.
- Divert e-waste from Canadian landfills.

## About Recycle My Electronics

Recycle My Electronics is your national not-for-profit organization providing trusted, proven program management for electronics recycling across Canada.

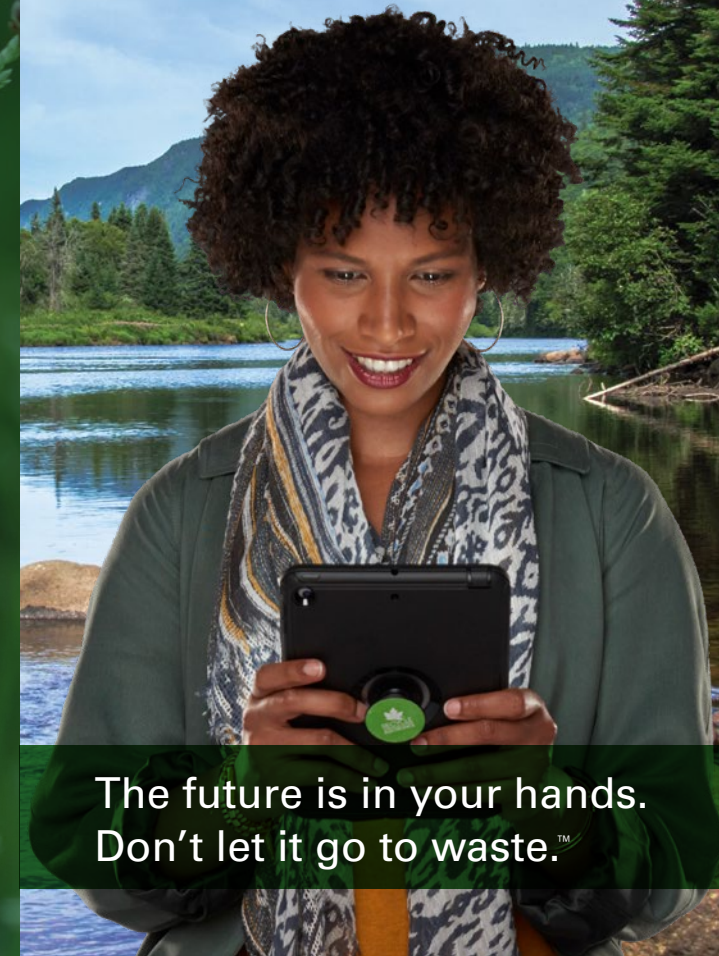

Recycle My Electronics works with stores and businesses in local municipalities, partnering across the nation to provide critical waste management services to residents. We take pride in working with our partners to create custom, local solutions within regulatory requirements.

The Recycle My Electronics logo, brand and design trademark is the sole property of Electronic Products Recycling Association (EPRA). Any unauthorized use is strictly prohibited.

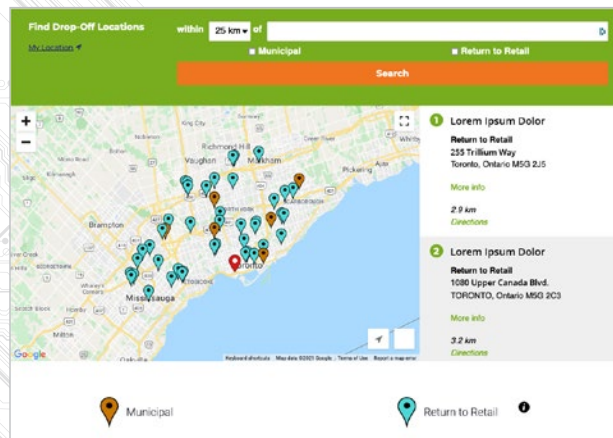

The future is in your hands.  
Don't let it go to waste.™

## How Recycle My Electronics Supports You

To support our partners in achieving sustainability objectives by introducing permanent collection for safe and secure recycling of electronics in our community.

- Permanent collection will help grow retail foot traffic while supporting a more sustainable future.
- This program includes logistics and marketing support of all permanent collection installations, as well as ongoing free hauling of all electronics collected at the store/business level with local logistics.
- To support collection, Recycle My Electronics are experts in sustainable operations and store support at national and local levels. This sustainability program/service is offered for low to no cost.

As a permanent collection site, in the Recycle My Electronics network of over 2,500 drop-off location throughout Canada, your store/business will be added to the location-based drop-off location search tool on my [recycleMYelectronics.ca](http://recycleMYelectronics.ca).

## What Collection Option Is Right for Your Business or Municipality?

<p><b>Collection Event</b></p>	<p>Recycle My Electronics delivers a collection bin. You host and staff the event plus get paid for all end-of-life electronics collected on a per tonne basis.</p>	<ul style="list-style-type: none"> <li>• Municipalities that do not have the ability to host a permanent collection site.</li> <li>• Community and non-profit groups.</li> </ul>	 <p>Roll-off Bin</p>

The map search functionality also allows partners to be searched specifically or as part of broader search.

This map uses geo-targeting, postal code or address search to determine the nearest authorized drop-off location.

The interactive map is featured on the homepage, as well as on its own dedicated “Where Can I Recycle” page, of every Recycle My Electronics website.
